

DYMACARE® MEDICAL-GRADE HAND WIPES

SOFT ON SKIN. TOUGH ON BACTERIA AND CORONAVIRUS.

- ✓ Effective hand disinfection on-the-go.
- ✓ Our antibacterial wipes are proven to kill 99.999% of bacteria* and 99.99% of coronavirus**
- ✓ Alcohol-free and will not dry out hands.
- ✓ Compared to alcohol, a lower evaporation rate means a longer residual effect on hands.
- ✓ Dermatologically tested. Suitable for frequent use.

[REF] DY 201H 15 wipes/pack | 20 packs/case

Antibacterial wipes are proven to be effective against*:

- *Pseudomonas aeruginosa* • *Staphylococcus aureus*
- *Enterococcus hirae* • *Escherichia coli*

*based on a 1 minute contact time [according to EN13727].

**efficacy only proven for coronavirus. 1 minute contact time [EN14476].
