PROVEN TO KILL 99.999% OF BACTERIA 99.99% OF CORONAVIRUS in as little as 60 seconds

Universal wipes with antibacterial action

Dymacare wipes can be used to disinfect hands, skin and general surfaces. For best efficacy of the product, it is important to have enough contact time with skin/surface. It is not advisable to manually dry surfaces you are disinfecting, always let them air dry. Surface examples include:

- desks & table tops
- keyboards
- steering wheels
- phones
- worktops
- trolleys & shopping trolleys
- flight tables & seats
- remote controls
- door handles
- tray tables
- hand rails
- bedside tables
- light switches
- wheelchairs, walking frames
- floors
- toilet seats, taps

Directions for use:

Open pack and take as many wipes as needed. Reseal label to prevent wipes from drying out.

For hygienic hand disinfection:

Wipe hands thoroughly for 60 seconds, including between fingers & around fingernails. Allow to air dry.

For hard surface disinfection:

As required, cleanse surface of stubborn dirt, then disinfect by rubbing a fresh wipe twice across the surface. Allow to air dry.

Dispose used wipes of when finished.

Powerful formulation that's gentle to skin

Formulated with powerful biocide to ensure the wide spectrum of microorganisms can be eliminated. Free from alcohol and will not dry out hands. Dermatologically tested and suitable for frequent use.
